American Seafoods Company is one of the largest integrated seafood companies in the US. We are a leader in harvesting, at-sea processing, preparation and supplying of quality seafood.

From the ocean to the plate, American Seafoods Company has established a global sourcing, selling, marketing and distribution network bringing quality seafood to consumers worldwide.

Marine Electrician / Electrical Controls Technician:

We are looking for a candidate experienced with PLC's, production line processes, and who has a strong background in trouble shooting electrical and electronic equipment controls. The Electrician is responsible for the operating, maintaining and repairing of all vessel electrical systems and processes which would include the electrical components for:

- Electrical controls systems
- Electric generating systems
- Refrigeration plant controls
- Watermaking/desalinization system
- Heating and ventilation systems controls
- Radar and navigational systems
- Satcom and telecommunications equipment
- And any other electrical and electronic systems

Minimum of 3 years vessel experience is preferred.

Physical Ability:

The candidate for the Electrician position must meet general company standards regarding physical condition, hearing and eyesight minimums. The candidate must have the ability to pass pre-employment and on-going random drug tests. The candidate must also be capable of boarding and exiting a vessel without physical assistance by climbing up and down a gang plank or using a Jacob's ladder. Must climb or descend one or more set of steep stairs or vertical ladders inside and outside the vessel in all weather conditions as extreme as 30 degrees below zero. *All final candidates must submit to a criminal background check.*

Work Schedule:

- 12 hours or more per day for the duration of the trip, including loading and unloading.
- Ability to work at sea for extended periods of time.

*We welcome your letter of introduction and resume, including references and qualifications.
